## AVILA INTRODUCES WEEKEND COLLEGE

Weekend College comes to Kansas City in August when over 40 college credit courses will be offered exclusively on Saturdays and Sundays at Avila College.

In announcing the Weekend College, G. Richard Scott, Academic Dean, said "Avila's Weekend College is designed for individuals who find the weekend a convenient and attractive time for learning and study."

It is designed to serve students who, because of job and family responsibilities, find Saturday and Sunday classes compatible with their lifestyles and goals. In other cities across the country, students have found the weekend college to be an exciting and meaningful experience in their quest for a college degree and personal enrichment.

Students in Avila's Weekend College may earn an Associate of General Studies and/or a Bachelor of General Studies degree. These degrees, which do not emphasize a specific major, will focus on a wide range of courses in the humanities, the social/behavioral sciences, and the natural sciences/mathematics.

These are the first undergraduate degrees offered in the

Kansas City metropolitan area that can be earned by attending classes solely on the weekends.

Courses in the Weekend College will meet every weekend of the semester for two hours and forty minutes. Weekend College students can choose from four different time slots: Saturday mornings (9:00-11:00 a.m.), Saturday afternoons (12:00-2:40 p.m.), and two time slots on Sunday afternoons (1:00-3:40 p.m. and 4:00-6:40 p.m.).

Credit courses offered during the Fall 1984 semester include art, biology, business, communication, computer science, English,

history, math, music, physics and sociology. For people interested in personal enrichment, there are noncredit courses in areas such as dance, writing skills and jazz-ercise.

Fees for Weekend College courses are affordable. They are \$75 a credit hour for academic credit courses and \$35 for non-credit courses.

**Find out if the  
Weekend College is for YOU.**

For more information, including times for registration, contact Dr. David Wissmann, (816) 942-8400, ext. 278.
